This is the eight event in the **Lecture Series** by well-known planners, policy-makers and other 'urban thinkers', which is being organised by AESOP, previously in cooperation with IFHP in the framework of respectively the Silver Jubilee (2012) and Centenary (2013) and since the beginning of 2014 continued in cooperation with European Regional Science Association (ERSA). The lecturers have been asked to present their ideas on 'new vision' for planning and territorial development.
